- Schools are centrally located close to public transportation, shops, and bars/restaurants
- Varied nationality mix

*games tables and vending machines not available at all sites

Our Values

OUR OBJECTIVE

Our purpose is to help our students in their desire to improve their language skills in the most efficient way and in the shortest possible time. We do our best to make your time, both in and out of class, an unforgettable experience.

We are a company which is focused on facilitating all the steps that the student must follow from the moment they decide to take a course. In this way we ensure that this new challenge is possible to achieve and provides an exciting experience.

We provide our students with personalised customer service, focusing on their personal needs and on the goals they want to achieve.

We want each of our students to obtain a unique and unforgettable cultural, educational and personal experience that can be enriched by sharing it with people from all over the world with the same passion: learning Spanish.

Support

At Hispania Schools we give the utmost importance to the well-being of our students and therefore, we always give them all our support and help in any situation or inconvenience that may arise, no matter what stage of their journey they are at.

OUR PROMISE

We are committed to guaranteeing all our students personalised and dynamic Spanish teaching so that they acquire a comprehensive and in-depth knowledge of the language and are able to function in their destination city in an active and independent way.

For this reason, Hispania Schools is designed to be a gateway to Spanish culture, where we train our students to discover and enjoy their own experiences during their stay; thus creating unforgettable moments full of life.

Premium Academic Quality

The Hispania Schools student Journey

21ST Century skills - Spanish for today's world

In all of our courses, we aim to empower the learner and prepare them for today's world.

When students graduate from one of our eight Hispania Schools, they are ready to use the Spanish they have learned in their place of work or study. Classes are available in-person, online, or as a blended learning combination of the two. Our teachers are trained in methodology which builds upon the Common European Framework for Languages, and have also received training in the successful delivery of online classes.

Students establish or build on a firm foundation across all the skills, using critical thinking and a combination of modern technology and tried-and-tested pedagogical practices to improve their learning experience. It is extremely important to us that students not only learn new language structures, but also use them actively in their everyday life.

Training in critical thinking allows students to develop and share their opinions, with a focus on interaction and sharing information. Students are guided in their learning to develop their productive, receptive as well as mediation skills.

- Productive skills are an indication of how much or well a student can speak or write.
- Receptive skills indicate the student's ability to understand what they hear or read around them.
- Finally, in mediation, the student is able to transfer information (written or spoken) from one source to a recipient, to receive and respond to information, and in return act as a facilitator or intermediary. In making this last step, students are truly prepared to use their Spanish in a meaningful way in their lives.

SPANISH LANGUAGE PROGRAMS

Levels & progression

Hispania Schools offers tuition for students who wish to make the maximum amount of progress to develop their Spanish language skills that may be required for further study or future career opportunities.

Hispania Schools provides various language courses suitable to all Spanish language levels. Our professional Academic Team are available to help and advise you on your language course choices.

Every week your teachers make a plan based on the learning needs of the students.

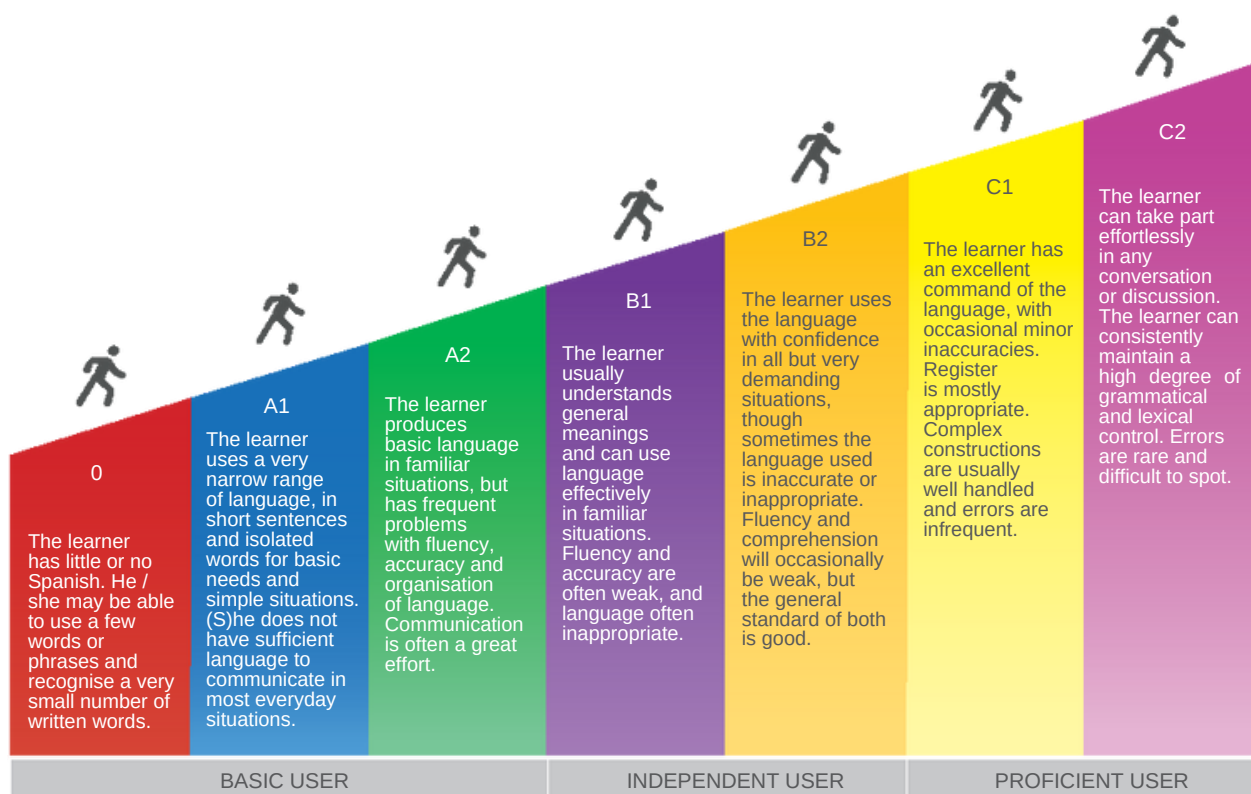

The course book and our Curriculum Framework, which is matched to the CEFR (Common European Framework of References for Languages) is the basis for much of the curriculum, with supplementary material taken from resource books and authentic materials.

Learning objectives for the week are set on Monday morning. These objectives are reviewed again at the end of each week.

You will also have regular revision and testing to help you review your learning and measure your progress. In addition, you will be able to meet with your teacher where you can discuss your individual progress and needs in more detail.

ALL OUR LANGUAGE COURSES INCLUDE

- Placement test
- Welcome Orientation tour on the first Monday of your course
- Access to the Adult Social programme
- Full use of school facilities

Improving your Skills

Confident Speaking

A1-C2

Our classes develop students' fluency and listening skills through communicative practice and reinforcement. Students will discuss a range of trending and relevant topics. Presentations, project work and cooperative tasks are designed to develop confidence in spoken Spanish.

For some courses, there will be the option to add related field trips.

Exam Skills

BI-C2

In this course, test-taking techniques are practiced and students are exposed to a variety of practice materials for the DELE and SIELE exams, tailored to the needs of the students.

21st Century Business

BI-C2

Our Business Spanish curriculum combines the best in academic business knowledge with practice for everyday business situations, exploring areas such as entrepreneurship, marketing, HR and more.

Academic Reading and Writing

BI-C2

Our courses will develop the ability to produce pertinent and accurate writing, exploring style and register. The integrated approach of the class fosters academic literacy and content development to build a solid foundation of academic language skills. Students will write formal essays, read and analyse fiction and non-fiction and improve their reading speed and comprehension.

Academic Speaking and Writing

BI-C2

From sentence structure to writing comprehensive reports and oral presentations to formal debates, in this class students will work on their academic productive skills. Students explore a different topic each week and prepare presentations and take part in discussions, with each week culminating in at least one piece of written work.

Spanish for Academic Purposes

BI-C2

For students intending to study in Spanish, this course will help them to establish successful habits and teach the skills needed to succeed in higher education including note taking, essay writing, discussions and presentations.

Debate, Presentation and Public Speaking

BI-C2

Through structured coaching and feedback, students build on their ability to make their point with conviction and clarity. They will learn persuasive language and the language of agreeing and disagreeing politely in the context of various topics, culminating in a debate, presentation or a speech at the end of each cycle.

Global Leadership

BI-C2

Our global leadership course offers training in self-evaluation, critical thinking, negotiation, active listening and research, all within the framework of an Hispania Schools programme of the highest academic standards.

Accommodation Quick View

All Hispania Schools language centres offer a choice of accommodation including homestays with our carefully selected hosts, shared apartments with other students and in some destinations, college residential accommodation and private apartments.

Host Families

Our carefully selected homestays offer friendly, comfortable surroundings in which you can experience what life is really like in your host country. Many of our students stay in touch with their hosts for years afterwards.

Student Residence

A student residence is the perfect option for students seeking freedom. Have fun living with other students from the school with whom you can practise what you have learned in class while enjoying complete independence. Our residences offer you a great atmosphere of conviviality from the very moment you arrive.

Shared Apartments

This type of accommodation allows you to live in the company of other students, in a single or double room. You will enjoy complete freedom to come and go as you please, prepare your meals as you wish (possibility of using the kitchen), while living with people whose way of life is also independent.

Private Apartments

Private studios and apartments are the best option for students who want to live with more privacy and independence. All the apartments are located in an area close to the school and have everything you need to enjoy your study trip.

“I don’t have words to describe and thank my hosts. They’re awesome, friendly, kind fellows, and all the good adjectives that could exist.

Our Programs

Our range of General Courses offers something for everyone whether you're looking for a short refresher course, or a longer, more intensive course, Hispania Schools has the programme to suit your needs.

General Spanish Courses

Study for an Academic Year

The Intensive Spanish courses are the most demanded by our clients. Students can choose between intensive courses of 2, 4 or 6 daily lessons depending upon their needs.

Intensive 10

With just two lessons a day, that is, ten lessons a week, the student will be able to improve his understanding, writing and conversation in Spanish. In a pleasant and effective way he will be able to continue developing his language skills while dedicating time to his personal projects or simply enjoying his stay in his destination city.

Intensive 20/ 25

This is our most popular and requested course by our students as it is the perfect combination of learning Spanish effectively and having enough time to enjoy your study trip outside of the classroom. With four lessons a day the student will improve his knowledge of grammar, oral and written comprehension and vocabulary. The student will quickly acquire the necessary linguistic base to function in his destination city and be able to interact both with his classmates and with the local people.

Intensive 30

This course is designed to facilitate the development of language skills and knowledge of the language quickly and efficiently. With six daily lessons, the student will improve his oral and written expression, as well as his listening and reading comprehension, in a few weeks, thus quickly adapting to their destination city and the local culture.

Combined 25

With the combined Spanish course 20 + 5 the student will be able to enjoy twenty weekly group lessons, where he will practice his communication skills with his classmates and five private lessons per week in which he will be able to continue developing his learning in the areas that he decides on and concentrate exclusively on his specific needs.

Combined 30

If the student wants to take advantage of his stay to learn as much Spanish as possible, this is the recommended option. This is the most intensive course we offer and in which the student will achieve the best results in the shortest possible time.

Exam Preparation

DELE / SIELE /

The exam preparation courses are designed for students who need to speak Spanish for work reasons or to gain access to university.

By taking our Exam Preparation courses the student will develop the necessary skills to pass the exam and obtain the official certificate.

Dele Preparation

DELE (Diplomas de Español como Lengua Extranjera) is the official certificate of Spanish as a foreign language and is granted by the Cervantes Institute on behalf of the Spanish Ministry of Education, Culture and Sport (equivalent to IELTS and TOEFL in English). It is an internationally recognised diploma that certifies the level of proficiency in Spanish and is required to access Spanish universities, as well as in different areas of the labour market. The levels are as follows:

Siele Preparation

SIELE is the International Service for the Evaluation of the Spanish Language that certifies the degree of proficiency in Spanish through electronic means aimed at students and professionals from the five continents. It is promoted by the Cervantes Institute, the National Autonomous University of Mexico, the University of Salamanca and the University of Buenos Aires.

It offers the possibility of taking a complete exam with four tests (Reading Comprehension, Listening Comprehension, Written Expression and Interaction, Oral Expression and Interaction) or just a few tests if you wish to accredit partial language skills. Both the tests and the procedures around them (such as obtaining the title) are carried out electronically. With the SIELE Preparation course the student will acquire the necessary knowledge to pass the exam and obtain the certificate that will accredit your level of Spanish internationally. Our teachers are highly qualified and have extensive experience training students who want to obtain the SIELE.

Private Lessons

Learn Spanish at your own pace

Private classes are the most flexible option available for our students. They can choose between the Individual 10, Individual 20 course or simply add the classes they want to their program, agreeing on the timetable with their teacher.

One to One 10

With the individual course 10 the student will have ten lessons a week with a private teacher, so the classes will be totally personalised and adjusted to his needs. The student will be able to dedicate the time of the classes to improve upon the areas of the language in which he has the most difficulties or to learn about specific aspects of Spanish in which he has a special interest.

Depending on his needs the student can choose, for example, to revise grammar, pronunciation, fluency of conversation or vocabulary. Our teachers can also recommend what area of the language the student can improve to reach the level he needs.

One to one 20

By taking this course the student will enjoy 20 private lessons per week, that is, four daily lessons.

He will be able to learn Spanish quickly and efficiently as the teacher will only focus on his personal needs. Together with him/her he will decide in which areas of the language he wants to improve and the student will receive a study plan tailored to his needs and it will be totally personalised.

Specific Purpose Courses

Our Spanish for specific purposes is designed for professionals who want to improve their Spanish skills and develop their vocabulary in order to effectively deal with their Spanish-speaking clients. This is a customized professional course and the exercises will focus on the needs of the student. Students should have a basic knowledge of Spanish in order to benefit from this course, and the number of weeks is determined by the student's needs and schedule.
